## ■ Description

FDHC-100 series is a 100W AC/DC LED power supply featuring the constant power output mode, FDHC-100 operates from 180 ~ 295VAC and output current can be adjust between 490mA to 1050mA & 1300mA ~ 3000mA. Thanks to the high efficiency up to 90%, with the fanless design, the entire series is able to operate for -30°C ~ +90°C case temperature under free air convection. The design of metal housing and IP67 ingress protection level allows this series to fit both indoor and outdoor applications. FDHC-100 is equipped with output current adjustable function so as to provide the optimal design flexibility for LED lighting system.
